OBJECTIVE

Motivated and dedicated B.E. Electronics and communication engineering student seeking a good position in a reputed Company. Eager to apply my technical skills to contribute to innovative projects, my personal growth and organizational success.

EDUCATION

B.E. ECE – Final year

- R P Sarathy Institute of Technology, Salem
CGPA: 8.4 (up to 5th semester)

Higher Secondary - 12th Grade 2023

- St. Lucy's Matric Higher Secondary School, Palacode | Percentage: 86.5%

Matriculation - 10th Grade 2020

- Radha Matriculation School, Palacode | Percentage: 98.4%

TECHNICAL SKILLS

Embedded C

Java with Oops concepts, MySql

MATLAB, Verilog

Python Fundamentals

ACADEMIC PROJECTS

LPG gas detection and protection system:

Developed a smart safety system that detects LPG gas leaks using a gas sensor, automatically closes the gas regulator via a servo motor, and activates an exhaust fan to remove accumulated gas, improving domestic safety through real-time monitoring and automated response.

Smart Energy Meter:

Developed a microcontroller-based smart energy meter capable of monitoring voltage, current, power, and energy consumption in real time using ACS712 current sensing and voltage measurement modules. The system provides accurate energy usage data to support efficient power management and consumption analysis.

CERTIFICATIONS & ACHIEVEMENTS

- Secured 3rd place in Code Tressure event at Sona College of Technology.
- Embedded C certified by Embuzz Technologies pvt. Ltd.
- Participated in external Symposium events and presented papers in Conferences.
