

Sample Data

Sample Inventory 1

Inventory ID: INV001

Title: OpenSSL Critical Vulnerability Detection

Description: The uploaded inventory contains OpenSSL, which has a known critical security advisory.

Input Inventory:

applications:

- openssl

Expected Output:

```
[
  {
    "product": "openssl",
    "affected": true,
    "cve": "CVE-2025-1234",
    "severity": "critical"
  }
]
```

Expected Severity: Critical

Expected Status: Affected

Sample Inventory 2

Inventory ID: INV002

Title: Log4j Vulnerability Detection

Description: The uploaded inventory contains Log4j, which matches a known critical advisory.

Input Inventory:

applications:

- log4j

Expected Output:

```
[
  {
```

```
"product": "log4j",  
"affected": true,  
"cve": "GHSA-log4j-demo",  
"severity": "critical"  
}  
]
```

Expected Severity: Critical

Expected Status: Affected

Sample Inventory 3

Inventory ID: INV003

Title: Requests Library Security Check

Description: The uploaded inventory contains the Requests library which has a medium-severity advisory.

Input Inventory:

applications:
- requests

Expected Output:

```
[  
{  
  "product": "requests",  
  "affected": true,  
  "cve": "OSV-2026-0001",  
  "severity": "medium"  
}  
]
```

Expected Severity: Medium

Expected Status: Affected

Sample Inventory 4

Inventory ID: INV004

Title: Multiple Vulnerability Scan

Description: The uploaded inventory contains multiple software components that match known advisories.

Input Inventory:

applications:

- openssl
- log4j
- requests

Expected Output:

```
[  
  {  
    "product": "openssl",  
    "affected": true,  
    "severity": "critical"  
  },  
  {  
    "product": "log4j",  
    "affected": true,  
    "severity": "critical"  
  },  
  {  
    "product": "requests",  
    "affected": true,  
    "severity": "medium"  
  }  
]
```

Expected Severity: Critical, Critical, Medium

Expected Status: Affected
